

Please take action to prevent Sinclair Broadcast Group from forcing its stations to air its program entitled "A POW story: Politics, Pressure, and the Media." Although billed as a news program, the content appears to be highly partisan - broadcasting such a program the week before the national election is a misuse of the public airwaves.

I strongly suspect Sinclair Broadcast Group of attempting to sway an election through the public airwaves. Local stations are being forced to air this program and that is not right. Please intervene to prevent such a misuse of the public airwaves.
